

Block Island Utility District Energy Efficiency Program – Weatherization Rebate Application

How to Apply

1. Verify that the equipment/services qualify for a rebate by consulting with a Rhode Island certified contractor and reviewing the requirements listed in this application.
2. Purchase the qualified equipment/services and have a Rhode Island certified contractor perform the work. Have the contractor sign this application when the work is completed.
3. Obtain an invoice from your contractor containing the following information: type of work performed, hours of labor performed, equipment installed (if applicable), date and location of services performed, total job costs, contractor's name, business name and address, and an indication of "paid in full" or "zero balance".
4. Complete this application in full. Attach a copy of your invoice and, if applicable, installed equipment's spec sheet indicating its efficiency (R-value) to this application. Mail, or scan and email, these documents to the Block Island Utility District office. After your application is processed, you will receive your rebate check in the mail within 4 to 6 weeks.

CUSTOMER INFORMATION

Customer Name (First & Last): _____

Installation Address: _____

Mailing Address (if different): _____

Email: _____ Phone: _____

Block Island Power Company Account Number (Installation Location): _____

Date of Energy Assessment (from Audit Report): _____

I hereby request a rebate for the work listed in this application. Attached are copies of all invoices and equipment spec sheets indicating efficiency. I certify that a Rhode Island certified contractor has installed the listed equipment in accordance with the Program eligibility as described on this form. I understand that some restrictions may apply and rebate offers are subject to funding availability. Rebates will be reviewed and processed on a first-come, first-served basis. The Utility District reserves the right to reject any application not filled out completely, truthfully, and accurately. This program and associated rebates are available through work completed through April 30, 2021.

Customer Signature _____ Date _____

Weatherization Bonus Rebate:

Check Here for Rebate of up to \$250 if you have, or will soon have, installed both exterior wall insulation and a heat pump heating system.

Customers who install both exterior wall insulation and a heat pump heating/cooling system are eligible for a \$250 bonus incentive. If you have recently installed, or are planning to have, a heat pump heating/cooling system installed, check the box above. Once both insulation and the heat pump systems have been installed you will receive the weatherization bonus check. Both insulation and heat pump system must be installed in the same calendar year to be eligible.

Block Island Utility District Energy Efficiency Program – Weatherization Rebate Application

The Block Island Utility District is offering rebates for several weatherization measures – air sealing, duct sealing, pipe insulation, and exterior wall insulation. Only Block Island homeowners and businesses may apply. A Rhode Island certified contractor must perform the work and sign this application. See eligible services and rebate amounts below.

To apply, please fill out this form and mail it with all required documentation to

Block Island Utility District
Attn: EE Program Rebate
100 Ocean Avenue
P.O. Box 518
Block Island, RI 02807

Scan a completed form with required documentation and email it to:
tfredericks@blockislandpowercompany.com

OR

Forms must be received within forty-five (45) days of equipment installation. Customers must have received a home energy assessment to be eligible for rebates. Rebates are available based on the availability of program funds on a first come, first served basis. **Rebate amount not to exceed \$2,000 per residential customer or \$4,200 per business customer, per program year.** Please allow 4 to 6 weeks for a rebate check to arrive via mail.
